Creation of a Community Grant Fund

Athens Federal Community Bank had a rich history of community involvement in McMinn, Monroe, Bradley, Meigs and Polk counties, as well as surrounding communities. This commitment was strengthened by the establishment of Athens Federal Foundation, a Charitable Foundation created to provide funding to support charitable causes within the former Athens Federal Community Bank's market area.

We are keenly interested in funding community development via affordable housing, job training, and programs that assist the economically disadvantaged. We believe that education of our youth is our future and special emphasis will be given to educational efforts. Programs providing continued good health care and supportive human service programs are also a priority. We will also support local cultural groups and institutions knowing these grants will broaden access to cultural and arts activities and will enhance the quality of life in our local communities.

Athens Federal Foundation Grants will support programs or projects occurring thru 12-01-2025 and 12-01-2026. We are providing you with these guidelines to assist you as you prepare your proposal.
